- Cloud Portability
- PowerFlex Rack for full converged experience
- PowerFlex Appliance for flexibility
- *PowerFlex Appliance + Engineered Rack for flexible convergence*

Consolidate With PowerFlex

Consolidate to common platform that can support data center scaling for any workload with linear performance scaling and extremely low latency

Operate With AHEAD Managed Services

Deep expertise across platforms, consistent management, 24x7x365 monitoring, support and config management

Rapid Automation

AHEAD has developed specific automation workflows in our Automation Hub to rapidly deploy your own self-service automation portal for PowerFlex

Extend to the Cloud

Take your workloads to any cloud with operational consistency by leveraging PowerFlex on prem and in the cloud

Leverage ServiceNow's front-end self-service portal + AHEAD Automation Hub, all deployed to PowerFlex. Delivered as an Engineered Rack, managed as a solution.

AHEAD Automation HUB for PowerFlex

Our Automation Hub for PowerFlex offers a modern, simplified automation architecture that allows teams to manage services, release software efficiently, and ultimately serve internal audiences more effectively through improved project visibility across placement areas including IoT, on-premises, public cloud, XaaS, and beyond.

PowerFlex is the Common Platform

Unified management, predictable outcomes, streamlined operations

Why AHEAD for Managed Services?

Supporting Businesses with Flexible, High-Level Performance

AHEAD offers comprehensive Managed Services from full program management of the entire IT infrastructure and applications to segmented solutions for infrastructure or security management only, depending on the specific need.

INFRASTRUCTURE MANAGEMENT | MANAGED SOLUTIONS | SECURITY MANAGEMENT | FULL PROGRAM MANAGEMENT

Our managed services free your team to focus on more meaningful, high-impact work. We provide flexibility and scalability to meet unforeseen changes in your business, but also more predictable operating costs and reduced risks.

Better Together
